GUIDE TO ORIGINALITY/COPYRIGHT SPECIFICATIONS FOR PAPERS PUBLISHED BY THE INSTITUTION OF ENGINEERING AND TECHNOLOGY

All IEE journals are now published by the Institution of Engineering and Technology (IET), a new institution formed by the joining together of the IEE (The Institution of Electrical Engineers) and the IIE (The Institution of Incorporated Engineers). The new institution is the inheritor of the IEE brand, products and services.

The procedures and requirements for the publication of papers submitted to journals published by the Institution of Engineering and Technology are described below. The Institution of Engineering and Technology must be in receipt of a completed and signed Statement of Originality form (page 3) as well as the Declaration of Crown Copyright form (page 4). Without either of these, the Institution of Engineering and Technology is unable to proceed with publication. Please also see page 2 for details of our Pre- and Postprint Policy.

1. Originality

It is the policy of the Institution to publish original material. So that the submitted paper may be considered for publication and, if appropriate, refereed, all authors (also see 2.7 below) are asked to sign the Statement of Originality on page 3 of this form. This Statement applies to the paper as submitted and to the paper as it may be revised by the author(s) prior to publication.

2. Copyright

2.1 It is a requirement of Bylaw 86 of the Institution of Engineering and Technology that every paper presented to the Institution of Engineering and Technology and accepted for publication and the copyright therein shall be the property of the Institution of Engineering and Technology.

2.2 The copyright of the paper must be assigned to the Institution of Engineering and Technology by means of the Publication Agreement and Assignment of Copyright (page 4).

2.3 Where the author(s) is/are employed by the Crown, or if for any other reason the Crown has any rights in the paper, then having regard to the provision of Section 163 of the Copyright, Designs and Patents Act 1988, the author(s) must obtain permission to publish from the Controller of HM Stationery Office. Other consents may also be required.

2.4 In the U.S.A. copyright protection is not available for 'works of the U.S. Government' i.e. a work prepared by an officer or employee of the U.S. Government as part of that person's official duties, or on behalf of the U.S. Government. Such work can be freely copied in the U.S.A., and copyright in it cannot be claimed by a publisher. Similar provisions may apply to work done by Government employees in other countries.

2.5 If the copyright of the work is owned by the author(s), the Agreement should be signed and dated by the author(s) at space A. (The author(s) assert(s) to the Institution of Engineering and Technology that he/she/they has/have the moral right to be identified as the author(s) of the work in accordance with the Copyright, Designs and Patents Act 1988).

2.6 If the copyright of the work is owned by the organisation which employs the author(s) or which has commissioned the work on which the paper is based, an authorised representative of that organisation should sign and date the Agreement at space B. (Note that when a work is made by an employee in the

course of employment, the employer is the owner of any copyright in the work, but subject to any contractual variation of this position, agreed between the employer organisation and the employee author(s).)

2.7 If it is not possible or impracticable for all authors to sign the 'Statement of Originality' and the 'Publication Agreement and Assignment of Copyright', the corresponding author may sign on their behalf. In doing so, the signatory confirms that all authors have given their permission for the signatory to act on their behalf.

2.8 The organisation in assigning the copyright in the paper gives no warranty expressed or implied that the paper is free from defamatory matter, nor that the paper does not infringe the rights of any third party.

2.9 The organisation warrants that it:

- a) has advised the author(s) of his/her/their responsibilities to avoid defamation or infringement of third party rights, and
- b) will notify the Institution of Engineering and Technology of any adverse claim that comes to its knowledge prior to publication.

2.10 Nothing in the Agreement shall in any way affect any agreement which the organisation may have with any of its employees or others performing work for or on its behalf.

2.11 The author(s) and/or the organisations for whom the work was performed shall be entitled:

- a) to retain all proprietary rights other than the copyright such as patent rights;
- b) to reproduce figures and extracts from the paper with proper acknowledgement to the Institution of Engineering and Technology;
- c) to reuse all or portions of the paper in other works with proper acknowledgement to the Institution of Engineering and Technology;
- d) without payment to make and have made copies of the published paper for his/her/their/its own purposes but not for sale, provided that no reference is made to the Institution of Engineering and Technology in any manner which implies endorsement by the Institution of Engineering and Technology of any product the organisation manufactures or in which it deals.

2.12 If the Institution of Engineering and Technology declines to publish the paper, the copyright in the paper will remain with the original copyright owner(s). If the paper is accepted for publication but is not published within a reasonable time after acceptance, the copyright owner(s) will have the right to require the Institution of Engineering and Technology to reassign the copyright in the paper to the original owners.

STATEMENT OF ORIGINALITY

Manuscript ID: Date:

Paper Title:

Author(s):

1. Authorship

1.1 Does the paper describe work carried out by the author(s)?.....

1.2 Has anyone else contributed to the work, to the paper or taken part in its preparation? If so, please name them

1.3 Does the paper give proper acknowledgement to all contributors other than the author(s) named above?

1.4 To the best of your knowledge, is the work described in the paper original? If the paper includes work which is not original or which has been copied from another source, please give details:

2. Publication elsewhere

2.1 Has the paper been presented at any conference / congress / symposium etc? If the answer is 'yes' please upload a copy of the material presented and give details (in a covering letter) of how the submission to the Institution of Engineering and Technology is a significant enhancement of the previous work:

2.2 Has the paper been published in any journal, or other form of publication (in any language)? If 'yes' please give details:

2.3 Is the paper presently under consideration for publication in any other journal or other form of publication?.....

3. Permission

Has your employer (or any person who commissioned the work described in the paper) agreed to its submission to the Institution of Engineering and Technology with a view to publication?:

Please sign below

I/We, the named author(s) of the above paper, confirm that the above statements are correct, that the paper contains nothing defamatory, and that it may be submitted to the Institution of Engineering and Technology with a view to publication. I/We agree that the Institution of Engineering and Technology shall be entitled to be fully indemnified by me/us against all claims:

(a) that the paper is defamatory, or (b) that the paper infringes the copyright of any third party, or (c) arising from any negligent or wilful mis-statements in the answers to this Statement of Originality.

DECLARATION: CROWN COPYRIGHT SCIENTIFIC, TECHNICAL OR MEDICAL ARTICLES

All IEE journals are now published by the Institution of Engineering and Technology (IET), a new institution formed by the joining together of the IEE (The Institution of Electrical Engineers) and the IIE (The Institution of Incorporated Engineers). The new institution is the inheritor of the IEE brand, products and services.

1. The Institution of Engineering and Technology

of Michael Faraday House, Six Hills Way, Stevenage, Herts SG1 2AY

(Tel.: 01438 313311)

("the Publisher")

HMSO Reference Number: **99001245**

The Publisher has entered into a licence agreement ("**the Licence Agreement**") with:

The Controller of Her Majesty's Stationery Office

St Clements House, 2-16 Colegate, Norwich NR3 1BQ

(Tel.: 01603 621000)

("the Controller")

which permits the Publisher to publish scientific, technical or medical articles ("**the Papers**") which have been written by an officer working for a government department or agency as part of his/her official duties.

In order for the Publisher to publish the Paper detailed below under the terms of the Licence Agreement the Author needs to:

- (i) fill in the boxes at the end of section 2; and
- (ii) arrange for the appropriate person in his/her department to complete section 3.

4. WHERE TO SEND THIS COMPLETED FORM

The completed form should be sent to:

Electronics Letters/IET [Journal Name] *

Institution of Engineering and Technology

Michael Faraday House, Six Hills Way, Stevenage SG1 2AY

* delete as applicable

It is also permissible to fax the completed form to +44 (0) 1438 765526, or to email a scanned copy to the relevant editorial assistant.

Please note that the author(s) of a paper submitted to **IET Research Journals** (previously IET Proceedings) is/are required to submit the signed and completed statement of originality **in addition** to this form.
