Special Issue on:
Selected Papers from the 2020 2nd International Conference on Smart Power & Internet Energy Systems (SPIES2020)

Authors of selected high-quality papers presented in the conference will be invited to submit the extended versions of their papers to this Special Issue in *IET Generation, Transmission & Distribution*. Submissions will be open to presenters of both oral and poster papers.

Submit your paper to the journal’s ReView site via the following link: [https://www.iet-review.rivervalleytechnologies.com/journal/gtd](https://www.iet-review.rivervalleytechnologies.com/journal/gtd) selecting the SPIES2020 Special issue.

Topics of interest include, but are not limited to:

- Power System Control, Operation, and Management
- Power System Condition Monitoring and Asset Management
- Smart Grid Vulnerability, Cybersecurity, and Protection
- Energy Transportation and Electric Vehicle
- Internet Energy System, Wide Area Control and PMU
- Communication Technologies/Protocols for Smart Grid
- Artificial Intelligence and Machine Learning Applications in Power System
- Impact of Renewables on Distribution Network
- Electric Machines and Stability
- FACTS and High Power Electronics Applications in Power System

To submit your paper and for more information about the journal please visit: [www.ietdl.org/IET-GTD](http://www.ietdl.org/IET-GTD)
