

IET Nanodielectrics

Call for Papers

Submission Deadline: 15th December 2020 | Publication Date: Sept 2021

Editors-in-Chief: Zhi-Min Dang, Tsinghua University, PR China
George Chen, University of Southampton, UK

Special Issue on: Special Issue on Nano-materials for Engineering Application

Nano-materials have undergone tremendous advancement in recent years, specifically in the field of power engineering, communication system and biotechnology. In this Special Issue, we shall select the latest research related to nano-materials in Engineering Application. Articles can be submitted directly to the Special Issue through the journal's submission system and also from the papers presented at the Michael Faraday IET International Summit – 2020, Kolkata to be held on October 3-4, 2020.

Submissions for this Special Issue are available in two methods:

1. Submit to the Michael Faraday IET International Summit – 2020, Kolkata

From the papers presented in Michael Faraday IET International Summit – 2020, Kolkata, a primary selection will be made, and authors of those selected papers will be invited to submit their extended papers to IET Nanodielectrics. They will then undergo post conference peer review. For more information about the conference and to submit to the Special Issue via the conference submission link, please visit: www.mfiis.com

2. Submit to IET Nanodielectrics directly

Authors can also submit papers that are within the Special Issue's aims and scope directly to the journal's submission system. To submit your paper directly and for more information about the journal please visit: <https://mc.manuscriptcentral.com/theiet-nde>

Topics of interest include, but are not limited to:

- Synthesis
- Sensors and detectors
- Energy harvesting
- Engineering Application
- Carbon nanotube
- Semiconductor nanowires
- Nanomagnetic materials
- Materials in electronics and photonics
- Ceramic/polymer Nano-materials composites
- Sustainable Nano-materials
- Nano-biotechnology
- 2D materials
- Nano plasmonic structures

From January 2021, The IET will be publishing this journal in partnership with Wiley. **The open access Article Processing Charge (APC) for articles accepted for this Special Issue are waived.** For further information on APCs, and support for APCs including Wiley's institutional agreements and Research4Life initiative which offers waivers and automatic discounts for certain countries, please see our FAQs. To submit your paper and for more information about the journal please visit our website and read our Author Guide.
