

IET Quantum Communication

Call for Papers

Submission Deadline: 10th February 2021 | **Publication Date:** September 2021

Editor-in-Chief: Dr Shahid Mumtaz Instituto de Telecomunicações, Portugal
Professor Mohsen Guizani University of Idaho USA

Special Issue on:

Special Issue of Selected Extended Papers from Qcrypt2020

IET Quantum Communication is The Institute of Engineering and Technology's (the IET) newest fully Gold Open Access journal, covering the whole range of quantum communication areas and with a particular interest in research that focuses on how to transmit quantum information over wireless channels.

The IET is a global, multidisciplinary professional engineering institution. Our vision is to 'engineer a better world', which we achieve by inspiring, informing and influencing the global engineering community to support technology innovation and meet the needs of society. We believe that Quantum communication will change the direction of telecommunication research over the coming years, and will usher in new computing, networking, and communication paradigms. IET Quantum Communication is the IET's dedicated platform for bringing high quality, quantum communication content to the research community.

This special issue will present selected extended papers from Qcrypt2020, and we invite successful participants to submit extended versions of their quantum cryptography papers to IET Quantum Communication. We are especially interested in papers with an experimental focus on quantum cryptography for wireless quantum communication.

From January 2021, The IET will be publishing this journal in partnership with Wiley. The open access Article Processing Charge (APC) for articles accepted for this special issue have been **waived**. For further information on APCs, and support for APCs including Wiley's institutional agreements and Research4Life initiative which offers waivers and automatic discounts for certain countries, please see our [FAQs](#). To submit your paper and for more information about the journal please visit our [website](#) and read our Author Guide.
